

## MICROBIOLOGICAL ANALYSIS

### BATCH CONTROL

- **Microbiological analysis** on ingredients and finished products (cosmetics, medical devices and similar items): total viable bacteria count, yeasts and moulds count according to methods ISO (21149 e 16212), European Pharmacopoeia / USP, Cosmetics Europe, PCPC; Research of specific microorganisms according to ISO (21150, 22717, 22718, 18416) European Pharmacopoeia / USP, Cosmetics Europe, PCPC.
- **Validation of microbiological analytical methods** on specific matrix according to ISO 11930, European Pharmacopoeia, USP and PCPC.
- **Bioburden on MD** according to UNI EN 11737-1 and sterility assays.
- **Bacterial endotoxins search (LAL Test)** according to USP and European Pharmacopoeia.
- **Isolation and identification of contaminant strains** in products or in the manufacturing premises through DNA / RNA sequencing or MALDI-TOF or morphological analysis (moulds).
- **Test on surgical masks** UNI EN 14683:2019 annex D Bioburden; UNI EN 14683:2019 annex B; bacterial filtration efficacy (BFE) according to ISO 14683.

### PRODUCTS DESIGN (Cosmetics, Medical, Devices, Disinfectants, Biocides, Textiles, etc.)

- **Challenge test** (Test for the efficacy of preservative system) according to methods ISO 11930, European Pharmacopoeia, USP, FDA, Cosmetics Europe, PCPC.
- **Isolation and identification** of contaminant strains of products or manufacturing premises to add them in customized challenge tests.
- **Evaluation of D value** for the determination of PAO (Period After Opening).
- **In-use test in vitro** or on volunteers to evaluate the microbiological stability and PAO
- **Risk assesment for microbial contamination** of cosmetic products according to ISO 29621.
- **Evaluation of the antimicrobial efficacy** of chemical disinfectants and antiseptics according to UNI EN 14885 in medical, domestic, institutional and veterinary field.
- **Evaluation of specific antimicrobial efficacy** of products or ingredients towards strains of bacteria, fungi, viruses of dermatological or cosmetic interest (MIC, MBC, contact inhibition).
- **Antibacterial activity test** of textiles according to ISO 20645, ISO 20743 and ISO 22196
- **Test for the evaluation** of the action of microfungi on textile products according to UNI EN 1411.
- **Virucidal activity of chemical disinfectants**, antiseptics and similar products according to UNI EN 14476, UNI ISO 16777, ISO 21702, ISO 18184 (more additional virus strains, like coronavirus, are also available).

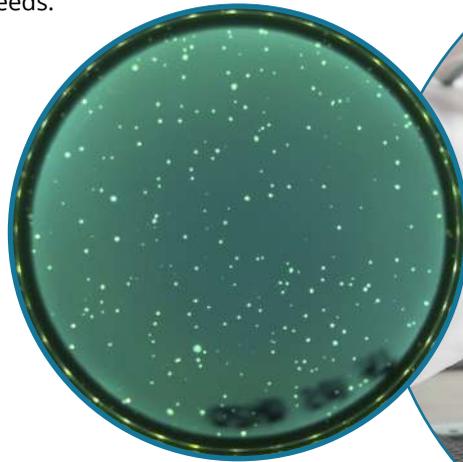

## MICROBIOLOGICAL ANALYSIS

- **Evaluation of the efficacy of finish products** or active ingredients on the skin microbiome modification through in vitro preliminary assays and test on selected panel of human volunteers.
- **Search for bacterial endotoxins (LAL Test)** according to USP and UE Pharmacopoeia.
- **Evaluation of the efficacy of environmental disinfection** by aerodisperse methods according to UNI EN 17272:2020.
- **Evaluation of the modification of bacterial adhesion** towards mammal cells by medical devices, supplements or active ingredients.
- **Mutagenesis assay (test di Ames)** according to OECD 471.
- **Design of customized testing protocols** and method validations on the bases of the sponsor's needs.

## CONTROL OF MANUFACTURING PREMISES

- Environmental analysis of aerodisperse microorganisms by air sampling with SAS SUPER IAQ "Surface Air System".
- Environmental analysis of the microbial contamination of surfaces in manufacturing plant, equipments and laboratories.
- Validation of cleaning and sanitisation procedures and protocols for manufacturing plant and premises in cosmetic and biomedical facilities.
- Design of testing protocols and customized validations on specific needs of the client.

**Quality systems and certifications: GLP (Italian Ministero Salute), ISO 17025, ISO 13485, ISO 9001, GMP (Montreal site).**

## CONTACT

**Italy**  
**Abich Srl**

Registered Office and Laboratory Analysis  
Via Quarantadue martiri 213/b  
28924 Verbania (VB) - **Italia**  
Tel. +39 0323 586239 / 496041

Clinical and Cosmetic Studies  
Via L. Cadorna, 67 - Edificio A/1  
20055 Vimodrone- Milano - **Italia**
